

MALVERN COLLEGE CHENGDU

Established in September 2015 in partnership with prestigious Malvern College UK, Malvern College Chengdu is located in the southern development zone of thriving city of Chengdu, China. It is a through-train school for pupils from 3-18 years old.

Over the years, Malvern College Chengdu has established a strong reputation in Southwest China as a leading school of its kind,

taking an innovative and international approach to prepare pupils for the 21st

century. It has produced graduates to leading UK universities like Imperial

College, London School of Economics, University College London, Warwick

and St. Andrews, to US universities like Notre Dame, Northeastern and San

Diego, as well as Hong Kong

Universities like University of Hong

Kong and Hong Kong University of

Science and Technology.

Spanning across an area of

approximately 10 Hectares (150 Mu), the campus is only 800 meters from Metro Station and a 30-minute drive from Chengdu Business Centre.

WHAT DISTINGUISHES MALVERN COLLEGE CHENGDU FROM OTHER SCHOOLS

Heritage of top British college with shared global resources

The Malvern family of schools, comprising of Qingdao (2012), Chengdu (2015), Cairo, Egypt (2016), Hong Kong (2018), and Tokyo, Japan (2023), demonstrate a strong commitment to advancing international education in their respective regions. Our schools play a crucial role in preparing students for admission to leading universities worldwide, thus establishing a legacy of excellence in education.

Malvern College Chengdu, like its sister colleges, is committed to upholding the high standards of teaching philosophy established by its prestigious parent institution, Malvern College UK. Rigorous standards in academic supervision and evaluation will be maintained through regular quality assurance visits from Malvern College UK staff, who will also play a key role in teacher recruitment across all Malvern schools. The global Malvern community, including Malvern College UK, will provide support for continued education, exchange programs for both faculty and students, and interactive classes, ensuring our students have extensive international learning experiences.

K12 education cultivating international talent.

Malvern College Chengdu provides a comprehensive K-12 education, beginning with a bilingual pre-school program that focuses on developing basic conversational skills in both languages. Following the British Curriculum, students are fostered in seven key areas and encouraged to explore independent learning through Forest School, and Reggio Emilia teaching methods. In primary school, students are encouraged to use Chinese while also building a strong foundation in English. The innovative integrated exploration course, tailored for the southwest

region, combines elements of PYP and IPC, encouraging students to critically explore different subjects and integrate their knowledge to develop problem-solving skills.

Secondary school aims to prepare students for further education overseas, with senior students studying IGCSE and A-Level qualifications, enabling them to apply to top universities in the UK, USA, Australia, and Canada. The holistic approach to teaching also encompasses physical education, music, art, extracurricular activities, and the Duke of Edinburgh Award, developing each student's leadership, social skills, and personal interests.

CHENGDU, THE MOST ENCHANTING CITY IN CHINA

Chengdu, situated in the central part of Sichuan Province, is not only recognized as the provincial capital, sub-provincial city, and national central city of the province but also serves as a critical center for science and technology, commerce, finance, transportation, and communication in southwestern China. Moreover, it is home to a rich variety of rare fauna, including the giant panda, and is celebrated for its culinary heritage, which has earned it the distinction of being named the first "Gourmet Capital" in Asia by UNESCO.

Chengdu's burgeoning economy has facilitated its transformation into a cosmopolitan city. It accommodates a multitude of multinational corporations, international schools, and a thriving tourist industry. The city has an amiable and spirited community of both local residents and expatriates. Chengdu is well-served by a rapid and sanitary metro system that traverses the city and two airports that operate domestic and international flights. With its dynamic atmosphere, Chengdu is a compelling destination for both professional and personal pursuits.

BE A MEMBER OF MALVEN COLLEGE CHENGDU

Malvern College Chengdu has been established by a dedicated team of motivated educators recruited from various countries worldwide, fostering a dynamic and invigorating academic environment and cultural immersion. We welcome you to join us in our exciting endeavor of establishing a new institution that offers world-class international education in China.

- We offer a highly competitive salary package for our expat teachers, which includes a monthly basic salary, TLR allowance, and contract completion gratuity.
- Our HR department is committed to providing comprehensive support for all administrative and visa-related matters, to facilitate a seamless transition for you to Malvern College Chengdu.
- We provide accommodation for all expat teachers, which is conveniently located in close proximity to the school.
- We provide our expat teachers with a comprehensive benefits package, which includes commercial medical insurance and an annual flight reimbursement.
- The school shuttle buses run between the nearest subway station and the school campus at the start and end of each day to provide a convenient and efficient daily commute for our staff.
- Regular staff social events are organized to cultivate a positive work culture and foster strong relationships among our staff.
- As part of our commitment to supporting our staff, we offer tuition-free seats to their children.
- Malvern College Chengdu is dedicated to providing a stimulating and supportive environment for our staff to grow and excel. To support this goal, we offer a comprehensive Professional Development Programme designed to enhance your skills and help you achieve your full potential.

Malvern College Chengdu Early Years provides a comprehensive Forest School programme, led and taught by certified expatriate teachers possessing level three Forest School qualifications. This curriculum is the most extensive Forest School programme available in Chengdu and the entire southwestern region of China. Our Forest School education is tailored to children aged between 3 and 6 years old. Despite inclement weather conditions, barring extreme weather or heavy pollution, our teachers guide the children to engage with nature. By learning in

this manner, children's sensory perception becomes heightened in response to natural stimuli, including sight, hearing, smell, taste, and touch.

PRIMARY SCHOOL

At Malvern College Chengdu, our primary education curriculum is designed to offer a unique blend of Chinese national curriculum and international education teaching and assessment methods. Our dedicated academic team has developed a rigorous curriculum that seamlessly integrates East and West, emphasising academic excellence and a well-rounded education.

Under our "Exploring the World" framework, we use interdisciplinary teaching methodologies that foster collaboration

and encourage students to connect the dots between different subjects, integrating knowledge from different disciplines to explore a common theme. Our curriculum draws on the best practices from the International Primary Curriculum and the STEAM approach to design interdisciplinary learning activities and assessments that promote innovative and integrated learning. Our students will study a range of subjects including personal growth and health, history and culture, the natural environment, and scientific disciplines. This project nurtures interdisciplinary inquiry-based learning from three perspectives: knowledge and understanding, skills, and attitudes.

SECONDARY SCHOOL

At Malvern College Chengdu, our goal is to cultivate a comprehensive understanding of the world and foster global connections through a bilingual and multi-modal activity-based approach. Drawing upon the Chinese philosophy of international understanding education, our institution offers an "International Understanding" (or "Global Perspectives") course that equips students with the ability to explore global projects from local, national, and global

perspectives.

In lower secondary (Grades 7 to 9), we provide an integrated and bilingual curriculum that combines the best practices of Chinese and international pedagogy, including inquiry-based and

student-centered learning. Our holistic approach, centered on the Malvern Qualities and Malvern DNA, emphasizes the development of the whole child, and includes specialized courses in areas such as Entrepreneurship and Global Perspectives.

Our Secondary International Centre is designed for senior high school students pursuing post-compulsory education (Grades 10-13). The center offers a comprehensive range of Cambridge and Edexcel IGCSE and IAL (International A-level) courses, which are widely recognized and respected globally. Upon graduation, our students have access to the most prestigious universities in the UK, USA, China Hong Kong, Australia, Canada, mainland Europe, and beyond.

THE PROVISION OF QUALITY EDUCATION AND CO-CURRICULAR ACTIVITIES

Global Teaching and Research Projects

Malvern College Chengdu actively engages in global teaching and research projects, such as the "Future City in 2021" United States Academic Pentathlon (USAP).

Competitions

Our senior students regularly participate in global business, economics, mathematics, and science competitions, as well as Model United Nations, World Scholar's Cup, and the Duke of Edinburgh Award Scheme. These competitions offer valuable opportunities for our students to showcase their academic abilities and compete on a global level, while the extracurricular programs provide opportunities for personal growth and leadership development.

Quality Education

Malvern College Chengdu advocates for a holistic approach that integrates moral, academic, physical, creative, and work-based education. This approach is fully integrated into the curriculum through a range of timetabled courses in diverse areas such as Drama and Visual Arts, Physical Education, Information and Communication Technology, Computer Science,

Dance, and Martial Arts.

Co-curricular Activities

Our school provides over 50 co-curricular activities, catering to students from Early Years to secondary school. These activities encompass a wide range of interests, such as Chinese and Foreign Musical Instruments, Cooking, Model United Nations, 3D Printing, Fencing, Mountain Biking, and Equestrianism. We are proud to have established professional teams in Martial Arts and Dance, as well as an accomplished Jazz Band and Orchestra, and a Calligraphy and Water Ink Painting Club.
